

Centre for Innovation and Applied Research “Elevator Speech”

CUE’s Centre for Innovation and Applied Research (CIAR) functions as a coordinating hub for applied research using the faculty and student research talents of Arts, Management, Science and Education.

The CIAR works to empower innovation by:

- facilitating CUE industry-driven collaboration
- promoting faculty applied research
- encouraging student applied research, innovation and entrepreneurship
- enabling Edmonton Capital Region enrichment through outreach activities

The CIAR provides a streamlined community-friendly approach for applied research, consulting, information access, project collaboration, and business incubation services.
