

## Concordia Women's Basketball 2014-14 Recruits

**Heather Killips**

**Position: Guard**

**Height: 5'9**

**High School: Harry Ainlay Composite High School**

Heather comes to the Thunder from a very successful Harry Ainlay program. She brings the ability to score and penetrate from the perimeter and the strength and stability on the defensive end of the game. "We are very excited to have Heather join our program: she will be a great asset to our future success". Heather's drive to improve each day is something special. "I am impressed how she challenges herself to get better, improve and eventually lead." Heather is an accomplished athlete as she has been part of basketball Alberta's CP program and the junior panda's program.

**Kendall Armstrong**

**Position: Guard**

**Height 5'7**

**High School: Chestemere Lakers, Chestemere Ab.**

Kendall is a product of Chestemere, Alberta where she has been a huge part of coach Utley's program. At Chestemere she was Captain this last year and led the team in a successful season. Kendall was an All-star and MVP for numerous southern tournaments. "I like Kendall's toughness as she brings it every time she is on the court. Kendall will be an

immediate impact in our system as she is a tenacious guard that can put the ball on the floor and score, or make the open shot". Kendall will provide the energy for her teammates and what the coaches will be looking for.

**Geri Anstice**

**Position: Small forward/Forward**

**Height 5'11**

**Schools: Macewan, Archbishop Jordan, Sherwood Park**

Geri comes from a very successful basketball family and has a deep love for the game that stems from her sister, mother and father. " Geri has the experience and ability to be a scorer, defender and leader for this team". Her length is a huge asset to us on the perimeter. She can play along side Karolina that will give the experience and length at the guard and small forward position. " Geri has the skill to be a force. She also has a great understanding of the game and can rebound score and defend."

**Jessica Frietag**

**Position: Forward**

**Height 6'0**

**High School: Bev Facey Composite High School, Sherwood Park, Ab**

Jessica is a product of the Falcon's women's basketball program. She will be joining former Falcon teammate Lindsay Piper in the Thunder's blue and gold next season. Jessica will bring a solid presence on the inside for the Thunder. "I am overwhelmed with Jessica's work-etic and versatility". Jessica has quickness in her position and is able to take opponents to the hoop. "She is long, quick and very smart". "Every time I had the chance to watch Jessica play I was very happy at how she worked on the little things". Jessica will be a great fit with our other post players. "She is a great kid, with a great attitude".

**Katlin Handel**

**Position: Forward/Center**

**Height 6'2**

**High School: Archbishop Jordan, Sherwood Park, Ab**

Katlin comes to the lady Thunder with the ability to be a huge inside presence. “ Her height and length give her the ability to run the floor very well”. Her skill to rebound and finish will be something to work on but I could not be happier having her in our program. Katlin will be an excellent post player as she has the skill and attitude we are looking for. I am looking forward to seeing her develop as a player and look forward to the skills she will bring to our team.

Concordia University College of Alberta and the Thunder Athletics program are delighted to welcome these student-athletes for the upcoming season. “ Go Thunder”!
