

3-Year Bachelor of Arts Psychology

Program Planner 2014-2015

While your degree planning is directed by the specific requirements for your chosen concentration and minor, it is also driven by your own personal interests; therefore, it is most effective when you are the master of your own academic planning.

Please be aware of all prerequisites, corequisites, and other registration regulations for all courses required within your degree. Program planning can be very effective to identify potential courses needed in addition to specific requirements. Refer to section 4.0 in the *Concordia Calendar* for more information regarding registration policies. You are responsible for registering in and completing the courses necessary to obtain your degree. The *Concordia Calendar* is the final authority regarding program requirements and academic regulations.

Core course requirements may be fulfilled through both concentration and minor requirements; however, the same course may not be counted toward both concentration and minor requirements. (Example: courses taken toward English minor simultaneously fulfill the English core).

Concentration Requirements

24-30 credits required to include:

- PSY 104 and 105
- PSY 211 or equivalent with a minimum grade of C- (MAT 151 and SOC 210 are acceptable equivalents; **the Psychology Department strongly recommends PSY 211**)
- PSY 319
- PSY 405
- 9-15 credits of unspecified senior-level Psychology courses

Note: Students seeking to pursue to the 4-year BA in Psychology (Applied Emphasis) should speak to an Admissions Advisor.
