

2000 ALBERTA SURVEY

QUESTIONNAIRE/CODEBOOK

The 2000 Alberta Survey was conducted by
the **Population Research Laboratory,**
Department of Sociology,
University of Alberta

December 2000

NOTATIONS

1. This codebook contains the actual questions and categories from the CATI questionnaire. Interviewer instructions have been retained for completeness.
2. DK = don't know
NA = not applicable
NR = no response
3. The SPSS system file contains a weight variable. The final sample sizes obtained for Edmonton, Calgary, and Other Alberta are not proportional to the Alberta population they represent. For instance, Edmonton is over-sampled. Edmonton makes up only 24% of the Alberta population but has 33% of the interviews. Therefore, weighting is necessary to combine the samples for a provincial data set.

If a sample is analyzed individually, then no weighting is necessary; for example, if the researcher is only interested in the Edmonton responses.

In the SPSS system file the weighting variable is: WT. By default the weight variable is on.

To turn weighting off: WEIGHT OFF

To turn weighting on: WEIGHT BY WT

The weighting factors used for the 2000 survey are as follows:

Edmonton	.711537
Calgary	.883280
Other Alberta	1.405904

For further details on the weighting calculation please see the Sampling Report.

INTRODUCTION

Hello, my name is _____ and I'm calling (long distance) from the Population Research Laboratory at the University of Alberta. I have dialled XXX-XXXX. Is this correct?
Your telephone number was selected at random by computer.

(FOR INCOMPLETE INTERVIEWS)

Hello, my name is _____ and I'm calling from the Population Research Lab at the University of Alberta. May I please speak to _____? We began an interview previously and I am calling now to complete the interview.

The Lab is currently conducting an important study of public opinion on topics such as physical activity and participation in sports, HIV, participation in health research, and current political and social issues. Your opinions will provide valuable information for researchers.

To ensure that we speak to a good cross-section of people in Alberta, can you please tell me the following:

How many men age 18 or over live at this number?

NUMBER OF MEN _____

99> REFUSED

.... and how many women aged 18 and over live at this number?

NUMBER OF WOMEN _____

99> REFUSED

INSTRUCTIONS TO INTERVIEWERS: IF NO ONE 18 YEARS OR OLDER LIVES IN THE HOUSEHOLD TERMINATE THE INTERVIEW. SELECT A HOUSEHOLD RESPONDENT ACCORDING TO THE STANDARDIZED RESPONDENT SELECTION GUIDELINES.

(OPTIONAL: WE DON'T ALWAYS SPEAK TO THE PERSON WHO ANSWERS THE PHONE. For this interview I would like to speak to an adult member of the household who is 18 years or older. May I speak to the male/a male member who is available. REPEAT INTRO.)

(REQUESTING AN INTERVIEW WITH THE PERSON WHO ANSWERS THE PHONE)

I would like to interview you and I'm hoping that now is a good time for you. Your opinions will provide valuable information for researchers at the University of Alberta.

May we proceed with the interview now?

Yes [Proceed to next question]

No [Schedule callback or terminate call and code appropriately]

Before we start, I'd like to assure you that your participation is voluntary and that any information you provide will be used only for the indicated purposes in conformity with the Alberta FOIPP (Freedom of Information and Protection of Privacy) act. If there are any questions that you do not wish to answer, please feel free to point these out to me and I'll go on to the next question. You, of course, have the right to end the interview at any time.

We do not need your name, so no one will know your answers to these questions. If you have any questions about the survey, you may call Diane Dennis, the Study Coordinator (in Edmonton) between 9:00 am and 5:00 p.m. at (780) 492-4659, ext. 229 for further information.

GOVERNMENT'S RESPONSIBILITY FOR THE POOR

VAR004 - RANDOM ASSIGNMENT FOR POVERTY QUESTIONS

- 1 Respondent asked question 1a.
- 2 Respondent asked question 1b.
- 3 Respondent asked question 1c.

This first question asks for your opinion about government's role in dealing with poverty.

Please tell me how much you agree or disagree with the following statement, using a scale from 1 to 5, where 1 means 'strongly disagree' and 5 means 'strongly agree'. You can choose any number between 1 and 5. The higher the number you choose, the more you agree with the statement.

(INTERVIEWER NOTE: Respondents are randomly assigned to be asked only ONE of the following questions.)

VAR005

1a. The government should provide **assistance** for the poor.

VAR006

1b. The government should provide **care** for the poor.

VAR007

1c. The government should provide **welfare** for the poor.

FEDERAL AND PROVINCIAL ELECTIONS

(The following questions, 2a. and 2b., are usually asked as part of the set of demographic questions at the end of the survey. For this survey they were placed at the beginning of the survey to avoid the possibility of order effects that may have occurred if they followed questions 35a. to 36g. which asked for ratings of particular political leaders.)

If an election were held today, how would you vote....

PARTICIPATION IN LONG-TERM STUDIES ABOUT LIFESTYLE AND CANCER

The next set of questions is about participating in long-term studies about lifestyle and cancer.

VAR008

3. Let's say that researchers at the Alberta Cancer Board were conducting a study on the connections between lifestyle and cancer. This would be a long-term study that would take an hour or two every couple of years to answer questions about diet, activities and health. Using a scale from 1 to 5, where 1 means 'not at all willing' and 5 means 'very willing', please tell me how willing you would be to participate in this type of study. You can choose any number between 1 and 5. The higher the number you choose, the more willing you would be.

This question is only hypothetical – we are not asking you to take part.
OPTIONAL READ: The study would take place over several decades.

VAR009

4. Cancer researchers need ways of reaching people to take part in studies like these. Alberta Health Care keeps a list of all Albertans. Using a scale from 1 to 5, where 1 means 'not at all willing' and 5 means 'very willing', please tell me how willing would you be to have your name included on a confidential list that researchers could use to invite people to take part in a cancer research study? The higher the number you choose, the more willing you would be.

VAR010

Let's say you did participate in a research study about the connection between lifestyle and cancer. How willing would you be to have a sample of your blood included in the following types of studies? Again, we'll use the scale from 1 to 5, where 1 means 'not at all willing' and 5 means 'very willing'. You can choose any number between 1 and 5. The higher the number you choose, the more willing you would be.

5a. How willing would you be to have a sample of your blood included....in a study about the connection between cancer and chemicals in the environment, such as weed sprays?

OPTIONAL READ: The researchers WOULD NOT be able to give individuals the results of their tests.

6. Alberta Health Care keeps current files about the care you have received. If you were a participant in a cancer research study, how likely would you be to permit Alberta Health to confidentially give some of this information to the researchers? Again, use the 1 to 5 scale, where 1 means 'not at all likely' and 5 means 'very likely'. The higher the number you choose, the more likely you would be.

OPTIONAL READ: For example, the types of health problems you have had in the past, or the number of times you have visited your family physician.

OPTIONAL READ: The advantage for participants is to save time in trying to recall health information; the advantage for researchers is the increased accuracy of the information.

ECONOMIC SIGNIFICANCE OF SPORT

[Edmonton respondents only will be asked the next section. If not Edmonton, skip to Question 31]

The next set of questions is about participation in sports and the expenses related to that participation.

Sport and active recreation involves participants who execute skills that require practice or preparation; it involves competition with other participants, oneself, or nature; and it occurs in a structured environment. Participants include athletes, coaches and officials. The spending questions DO NOT refer to money spent by spectators at major professional sport (i.e., Edmonton Oilers, Edmonton Eskimos, Edmonton Trappers, or Edmonton Drillers).

USING FEELINGS ABOUT POLITICIANS TO TEST TERROR MANAGEMENT THEORY

[Calgary respondents only will be asked the next section. If not Calgary, skip to Question 37]

Now, I would like to ask some questions on your feelings about different people and things.

(INTERVIEWER NOTE: There are two forms of the next set of questions. A random half of the respondents will receive the first form (Form A): two open-ended questions about death. The second half will receive the second form (Form B): two open-ended questions about making a speech in public.)

VAR093 – RANDOM ASSIGNMENT TO DEATH/PUBLIC SPEAKING QUESTIONS

- 1 Respondents asked questions 31 and 32.
- 2 Respondents asked questions 33 and 34.
- 9 Not applicable

Note: Responses to questions 31 to 34 were open-ended. These responses were not coded.

FORM A

First, we'd like to get your feelings about your own death. Please answer the next two questions with your first, natural response. We are just looking for people's "gut-level" answers.

31. What emotions does the thought of your own death arouse in you?

32. Please tell me as specifically as you can, what you think will happen to you physically as you die and once you are physically dead.

FORM B

First, we'd like to get your feelings about your making a speech in public. Please answer the next two questions with your first, natural response. We are just looking for people's "gut-level" answers.

33. What emotions does the thought of speaking in public arouse in you?

34. Please tell me as specifically as you can, what you think will happen to you physically as you speak and once you finish speaking.

ASK ALL (in Calgary Sample)

Next, I am going to read some statements that describe different emotions. Please tell me whether you do not feel, feel a little bit, or definitely feel that emotion right now. Would you say, right now, that you feel...

I'd like to get your feelings toward our federal and provincial party leaders. I'll read the name of a person and I'd like you to rate the person using this feeling thermometer. You may use any number from 0 to 100 for the rating. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel too favorable toward the person. IF YOU DON'T FEEL PARTICULARLY WARM OR COLD toward the person, you would rate the person at the 50 degree mark. Our first person is Jean Chretien. How would you rate him using the thermometer?
