Edmonton, AB T5B 4E4

Dear Danielle

I wanted to share a note of thanks to you and your staff at Concordia's Stringspiration Summer camp. Both of my daughters attended and they thoroughly enjoyed the entire week. The councillors were fun and energetic. The rehearsals and clinicians were challenging and engaging. The whole experience helped my daughters grow in their instruments. Most importantly though the girls left with some great memories that they still talk about. Madeline still talks about enjoying lunch in the setting of the river valley.

My wife and I have noticed their ability has grown considerably this year. Having the opportunity to sharpen their skills at a time when they would not normally be practicing allowed them to stay sharp over the summer break. My older daughter Madeline says that Stringspiration helped her grow in her ability to sight read. We've also noticed a marked improvement in the sound of our younger daughter's tone.

I was excited to see that Stringspiration is going ahead again this summer. Thank you for your continued commitment to music education. See you this summer.

Sincerely yours,

Aaron Ball
