Estimate as accurately as possible the costs you are asking SSHRC to fund. All budget items must conform to the rates and regulations of the <u>Tri-Agency Financial Administration</u> <u>Guide</u> and of your organization, and must be fully justified. For each entry, justify all budget costs in terms of the needs of the project.	<u>n</u> 7
For each personnel costs category, enter the number of individuals to be hired and specify the total amount (\$) required. The number of, and budget costs for, all individuals him must be justified relative to the project's needs. For travel, you must distinguish between types (for research purposes or for communication purposes, e.g., conference travel).	
Click Calculate Totals to complete the budget form.	
Adjudication committees may consider failing a project on the Feasibility criteria if they deem that 30 per cent or more of the overall budget request is insufficiently justified and/or not appropriate to the proposed objectives or outcomes of the project. They may recommend budget reductions in cases where they determine that the request is inadequately justified and/or not appropriate as described above, and where they judge that savings could be achieved without jeopardizing the project objectives. Committees will use the principle of minimum essential funding to guide their discussions of project budgets. An application will automatically be failed if the committee deems that 50 per c or more of the overall budget is insufficiently justified and/or not appropriate to the proposed objectives or outcomes of the project.	
Note: Insight Development Grant funds must not be used for conference organization or for remuneration or travel and subsistence costs of presenters or guest speakers.	
Note: Projects whose primary objective is the digitization of a collection or the creation of a database are not eligible for funding.
