

4-Year Bachelor of Management

Program Planning Guide 2018-2019

While your degree planning is directed by the specific requirements for your chosen concentration and minor, it is also driven by your own personal interests; therefore, it is most effective when you are the master of your own academic planning.

Please be aware of all prerequisites, corequisites, and other registration regulations for all courses required within your degree. Program planning can be very effective to identify potential courses needed in addition to specific requirements. Refer to [section 4.0](#) in the *Concordia University of Edmonton Calendar* for more information regarding registration policies.

You are responsible for registering in and completing the courses necessary to obtain your degree as per [section 10.0](#). The *Concordia University of Edmonton Calendar* is the final authority regarding program requirements and academic regulations.

Background Information

The Bachelor of Management degree was designed in response to the growing need for university graduates with leadership training and focuses on establishing a solid foundation of technical competence as well as developing leadership skills that are essential in a range of businesses and industries. The curriculum incorporates the gold standard technical courses such as accounting, finance and information technology with courses that facilitate the development of effective management skills. The degree is enhanced by innovative curricular threading in management ethics and international business. Distinguishing features include use of industry experts in the classroom, use of an independent employer advisory committee to ensure quality, and a relevant 13-week internship (work experience) placement.

The program allows students to choose from areas of emphasis in accounting, conflict management, data management, finance, human resource management, leadership, or marketing (section 10.3.1.D); from minors offered through the Faculties of Arts and Science (section 10.5); or from a range of elective courses.

The degree prepares students to enter the workforce directly and also provides the necessary requirements for students to pursue graduate studies in a wide range of business, academic and professional fields.

To request more or specific information related to the program:

- Members in the Faculty of Management such as Dr. Alison Yacvshyn, Mr. John Finley, Dr. Mark Loo, Dr. Ashish Thomas, and Dr. Natasha Khinkanina are good resources for course-specific information on the Management degree program.
- Students are encouraged to contact Sherry Palichuk regarding the coordination of their Internship (work experience) placement.
- Questions about the Bachelor of Management program and/or degree requirements (e.g., program advice, course scheduling, prerequisite exemptions, directed reading requests, etc.) can be directed to a Registration Advisor in the Registrar's Office or registrar@concordia.ab.ca.
