

3-Year Bachelor of Science

Program Planner 2019-2020

While your degree planning is directed by the specific requirements for your chosen concentration and minor, it is also driven by your own personal interests; therefore, it is most effective when you are the master of your own academic planning.

Please be aware of all prerequisites, corequisites, and other registration regulations for all courses required within your degree. Program planning can be very effective to identify potential courses needed in addition to specific requirements. Refer to [section 4.0](#) in the *Concordia University of Edmonton Calendar* for more information regarding registration policies.

You are also responsible for registering in and completing the courses necessary to obtain your degree as per [section 10.0](#). The *Concordia University of Edmonton Calendar* is the final authority regarding program requirements and academic regulations.

Concentration Requirements

Concordia offers 3-year and 4-year BSc degrees with concentrations and majors in Biology, Chemistry, Environmental Science, and Mathematics.

When you have decided upon your concentration or major for the Bachelor of Science, please use the *Program Planner* for that area of study.

Sample Program

Below is a sample sequence of courses for your degree. Keep in mind that this is only an example; you may find a different sequence works best for you. Also note that not all courses can be offered every semester. So, please check our [Course Timetables](#) for course availability.

Note: the 3-year Bachelor of Science degree requires a minimum of 42 credits in Faculty of Science.

	Fall Semester	Winter Semester
Year 1	ENG 101 or 111 or 120 Science (BES or CH recommended) Social Science or Psychology MAT Science Elective	Science (BES or CH recommended) Social Science or Psychology 3 credits from ARAB, ARTH, CHIN, CLAS, CLIT, CREE, DRA, ENG, FR, GERM, GRK, HEBR, LAT, MUS, MUP, MUED 264, PHIL, REL, SPA or WRI Science Elective Science Elective
