# 3-Year Bachelor of Science <br> Chemistry 

## Program Planner 2019-2020

While your degree planning is directed by the specific requirements for your chosen concentration and minor, it is also driven by your own personal interests; therefore, it is most effective when you are the master of your own academic planning.

Please be aware of all prerequisites, corequisites, and other registration regulations for all courses required within your degree. Program planning can be very effective to identify potential courses needed in addition to specific requirements. Refer to section 4.0 in the Concordia University of Edmonton Calendar for more information regarding registration policies.

You are also responsible for registering in and completing the courses necessary to obtain your degree as per section 10.0. The Concordia University of Edmonton Calendar is the final authority regarding program requirements and academic regulations.
