Repaying Your Student Loans

Repayment is the process of returning the money you have borrowed to the lenders, which includes the principal amount of the loan plus interest.

When does repayment begin? Repayment begins when you graduate or leave school for more than six months or are no longer a full-time student.

6-Month Non-Repayment Period: After you leave school, a six-month non-repayment period starts. During this period, you are not required to make any payments but interest can accrue depending on your loan program. You can, however, choose to make payments during this period.

What am I responsible for? You are responsible for repaying your loan & associated interest according to the terms of your loan agreement, and notifying your student loan provider if you:

- Change your name, address, banking information, or phone number
- Change from full-time to part-time studies or vice versa
- Leave or transfer to another school

Create an online account with your student loan lender/s! This allows you the flexibility to access your student loan information at your convenience and update your contact information. It also gives you access to important communications and documents.

It is very important that when you go into repayment you make your full loan payment on time each month. If you don't, you could end up in default, which has serious consequences and your credit rating may be affected. Student loans are real loans—just as real as car loans or mortgages. You have to pay back your student loans. **Tip:** You can make “extra” payments towards your loan debt at any time!

The National Student Loans Service Centre (NSLSC) offers an online Repayment Presentation which is easy to access. We highly recommend watching it!
