

POINT-OF-CARE SENSING DEVICES

PRESENTED BY DR. DHANJAI, CUE

MAR 29 2019 | **ROOM HA206**
12-1 PM

Dr. Dhanjai, is currently a Postdoctoral Researcher at Concordia University of Edmonton. His research is mainly focused on development of flexible, wearable and portable sensing devices for point-of-care diagnostics, food safety and environmental protection. Dr. Dhanjai will talk about the point-of-care sensing devices and their application in day-to-day life.
