

4-Year Bachelor of Management - Beijing Foreign Studies University

Program Planner 2020-2021

We now also offer an International Dual Degrees Program. As part of the 4-year Bachelor of Management degree, eligible students will complete year 1 at Concordia University of Edmonton, complete years 2 and 3 at Beijing Foreign Studies University, and then return to Concordia University of Edmonton for their final (4th) year. Upon completion of the degree program, students will earn a Bachelor of Management degree from Concordia University of Edmonton and a degree from Beijing Foreign Studies University. If you are interested in studying at the Beijing Foreign Studies University, please contact Concordia's International Office at the beginning of Year 1.

Please be aware of all prerequisites, corequisites, and other registration regulations for all courses required within your degree. Program planning can be very effective to identify potential courses needed in addition to specific requirements. Refer to [section 4.0](#) in the *Concordia University of Edmonton Calendar* for more information regarding registration policies.

You are responsible for registering in and completing the courses necessary to obtain your degree as per [section 10.0](#). The *Concordia University of Edmonton Calendar* is the final authority regarding program requirements and academic regulations.

Background Information

The Bachelor of Management degree was designed in response to the growing need for university graduates with leadership training and focuses on establishing a solid foundation of technical competence as well as developing leadership skills that are essential in a range of businesses and industries. The curriculum incorporates the gold standard technical courses such as accounting, finance and information technology with courses that facilitate the development of effective management skills. The degree is enhanced by innovative curricular threading in management ethics and international business. Distinguishing features include use of industry experts in the classroom, use of an independent employer advisory committee to ensure quality, and a relevant 13-week internship (work experience) placement.

The program allows students to choose from areas of emphasis in accounting, conflict management, data management, finance, human resource management, leadership, or marketing ([section 10.3.1.D](#)); or from minors offered through the Faculties of Arts and Science ([section 10.6](#)); or from a range of elective courses.

The degree prepares students to enter the workforce directly and also provides the necessary requirements for students to pursue graduate studies in a wide range of business, academic and professional fields.
