### **Project Title**

Health information-seeking and behavior among post-secondary students during the COVID-19 pandemic

### **Why Should I Take the Pilot Survey?**

To help us pilot a survey that seeks to better understand student's health needs, where they look for health information, and how they use this information to maintain health during a pandemic by:

- Completing a 10-minute online survey
- Provide feedback on the survey via google meets

### **How Will the Results from the Pilot Be Used?**

To develop a larger survey to be administered to develop students across Alberta. The final survey information will be used to develop appropriate information and support strategies to keep the public informed and healthy during future pandemic.

### **How Do I Volunteer?**

## OPEN WITH PURPOSE

Open Access is an international movement within the global academic community that seeks to **eliminate paywalls, providing free and open access to scholarly works** such as journal publications and data sets.

Monday, October 19th marks the beginning of 2020's International Open Access Week.

**Open with Purpose: Taking Action to Build Structural Equity and Inclusion**, acknowledges the need to address inequities by understanding the foundations of historic injustices.

"We need to examine who these spaces and systems are designed for, who is missing, who is excluded by the business models we use, and whose interests are prioritized. As we work together to rebuild these structures, we need to commit to moving from conversations to concrete commitments and to hold one another accountable for making real progress." – OAweek.org
