

A Taste of Home...

What is this about?

- Being an International student, it can be hard sometimes settling into a different place, starting anew and trying to find your way around this city. One of the things you can miss about home is the food, the laughter of your friends and family at the dining table as you share a meal. We hope that with this list you will be able to access some food that reminds you of the good times at home while exploring different parts of Edmonton. You can also make some new and beautiful memories with friends here to further enjoy your university experience.
