ENVIRONMENTAL CAREER DEVELOPMENT & SUMMER OPPORTUNITIES

**WEDNESDAY, MARCH 16
11 AM - 12 PM
DESIGN THINKING SPACE
ALLAN WACHOWICH BUILDING.**

The Faculty of Science is extending an invitation to all CUE student for a guest presentation by Concordia Alumnus, Matthew Hamilton, who is currently employed at Vertex Resource Group Ltd. as Project Manager. Matthew is a well established and successful environmental professional.

Matthew has a Degree in Biological Sciences from Concordia University of Edmonton and is a Registered Technologist in Agrology through Alberta Institute of Agrologists. Since his graduation he has worked as an environmental consultant across Western Canada specializing in remediation and land reclamation.

Matthew currently works as a project manager where he oversees reclamation and remediation portfolios with a focus on building and maintaining relationships with all stakeholders including land-owners, contractors, municipalities, indigenous communities, industry, and government agencies. Away from work Matthew's time is spent with his family. As a father of three active boys, he is fully scheduled with hockey, soccer and walking the family dog.

FAMILY NATURE NIGHTS

The Family Nature Nights take place in Edmonton and surrounding areas every Wednesday evening from July 20th - Aug 24th and are fun-filled opportunities for families to learn from guest speakers, do some fun nature-themed activities, and connect with nature. With special presentations like nature walks, pond dipping, a traveling lepidoptery (butterfly) exhibit, or even a trout touch tank, these are really special events to be a part of.

Volunteers will get an opportunity to enjoy the outdoors, share their love of nature, and inspire the next generation of nature lovers, all while gaining valuable experience and skills. I've attached the full position description below, but it can also be found on our website at <https://naturealberta.ca/family-nature-night-volunteers/>.

The graphic is a promotional poster for Nature Alberta's 'Monthly Donor' program. It features a dark, textured background with a faint image of a mountain landscape. On the left, the text 'Show your love of nature all year... become a Nature Alberta' is written in white. Below this, the words 'MONTHLY DONOR' are prominently displayed in large, bold, white capital letters. The letter 'O' in 'MONTHLY' is replaced by a blue snowflake icon, the 'O' in 'DONOR' is replaced by a green leaf icon, and the 'O' in 'DONOR' is replaced by a yellow sun icon. At the bottom left, there is a circular logo for Nature Alberta, which includes a stylized mountain and the text 'NATURE ALBERTA'. On the right side, a red, irregularly shaped box contains white text that reads: 'When you "Make it Monthly" before March 31st CanadaHelps will ADD \$20 to your donation!'. Below this, in smaller white text, it says 'Full details at naturealberta.ca/donate'. At the very bottom of the graphic, in white text, it says 'Full details at naturealberta.ca/donate'.

RE: HPV Awareness

Human Papillomavirus (HPV) is the most common sexually transmitted infection in the world. Three out of 4 sexually active Canadians are infected by at least one type of HPV in their lifetime. HPV is very contagious and can be spread through intimate genital skin contact, as well as through vaginal or anal penetration or oral sex. There are many different types of HPV, some of which can cause anal, genital or mouth warts, or more serious conditions like precancers or cancers of the mouth, throat, cervix, vulva, anus or penis. The best way to protect yourself is to get the HPV vaccine. Vaccines make your immune system stronger by building antibodies to help prevent disease. The HPV vaccine has been around for over 10 years and proven to be safe and decrease rates of HPV infections, genital warts and precancers.

As part of Concordia University of Edmonton's commitment to harm reduction and HPV awareness, the university has collaborated with Alberta Health and participating pharmacies to provide **free immunizations** (paid by the government) of the Human Papillomavirus (HPV-9) vaccine to all eligible students. However, there will be a **25-dollar injection fee** per visit. CUE specific clinics are available on March 17 & 18, 2022.

Eligibility

- Includes Concordia students 17 years up to and including 26 years of age

Dosing Schedule

- Dose 1: day 0
- Dose 2: two months after dose 1
- Dose 3: six months after dose 1

Note: if you received the first dose before the age of 15 yrs, you only require 2 doses six months apart.

If you are unsure whether you have previously received immunization against HPV, you may review your immunization records using MyHealth Records (<https://myhealth.alberta.ca/myhealthrecords>).

Participating Pharmacies

BSwiss - Swiss International Business Summer School 1 to 12 August 2022

Overview	The BSwiss - Swiss International Business Summer School in Basel (Switzerland) is a two-week programme open to Swiss and international bachelor's students. During two exciting and challenging weeks, participants attend courses, visit companies, discover local culture and establish networks with people from Switzerland and around the world.
Objectives	<p>Every student...</p> <ul style="list-style-type: none"> • Gains insight into the most relevant models and methods in the fields of competitiveness, innovation and international immigration. • learns from world class institutions like the Federal IPR-Institute. • can hone his/her ideas with university lecturers. Group presentations/case studies have to stand the test of the experts. • fosters internal collaboration and communication by working successfully in intercultural teams. • has read some scientific articles from research journals.
Programme	<p>The seminar focuses on subjects typically taught in the first two years of business application studies: global competitiveness, innovation and international migration.</p> <p>The programme features a guided tour of Basel as well as excursions to cultural and historical sites in the city and beyond; it also includes field trips to different Swiss companies. Company visits provide students with first-hand experience related to the theory discussed in the classroom.</p>
