- Portuguese as a Second Language
- Doctoral School
- Financial Aid & Awards
- Don and Norine Lowry Awards
- Summer University Lingen

MUSIC@CUE OFFERS POPULAR MUSIC COURSE IN SPRING 2 (MAY 24TH - JUNE 9, 2022)

Course Code: MUS 103 Q

Course Times: MTWRF, 9-11:50 AM

Study the development of Western popular musical styles such as blues, gospel, jazz, folk, country-and-western and rock-and-roll. The course examines the musical elements that define these common genres, how those elements have changed over time and how popular music has both reflected and influenced social change.

Popular Music (MUS 103) is a 3 credit fine arts offering, open to all students at CUE.

For more information, contact the instructor, Dr. John Brough at john.brough@concordia.ab.ca

- Diagnostics of pathological agents
- Immunity in health and disease

Law

- Theory and philosophy of law
- European Law

Scholarship at the Doctoral School

- I and II year – PLN 2371,70 gross per month
- III and IV year – PLN 3623,70 gross per month
- No tuition fees for international PhD students
- Admission fee (250 PLN) for the doctoral school is non-refundable

Doctoral students can take part in various mobility programmes, such as:

- Erasmus+** – mobility for studies (1 or 2 semesters in one of partner universities) and for traineeships (2 to 12 months in a company abroad)
- PROM programme** – financial support for scholarship exchange of PhD candidates and academic staff (active participation in a conference or obtaining materials for a PhD thesis/a library query – in an institution abroad)
- Polish National Agency for Academic Exchange** – different research programmes, short and long term exchanges

The University of Szczecin also offers accommodation in student houses, with moderate fees.

Accepted candidates will receive administrative support with legal issues, e.g. visa, residence permit.

Laureate of the PRODOK 2021 award in the category "The most pro-doctoral university in Poland"

Financial Aid and Awards

Making your summer job money last:

1. Scrutinize your bank fees. As a student, you may qualify for low-cost accounts with unlimited debit transactions at most banks. Get one of these while you can.
2. Boost your income. Does your employer pay time-and-a-half on the August or September holidays? Offer to work them.
3. Make a budget. Check out this free Student Budget Worksheet [here](#).
4. Automate your savings. Get paid every other Thursday at midnight? Have your bank move a lump sum of cash from your chequing account to a savings account every other Friday at 9 a.m. You can't spend money you never had access to.
5. Grow your cash. Why not toss the extra money you saved into a tax-free savings account? TFSA's are a great way to get an attractive return in today's environment and keep it.

The [Financial Consumer Agency of Canada](#) (FCAC) has some great tips for students! Check out [Working to pay for your education](#).

Tax Free Savings Account (TFSA)

The Tax-Free Savings Account was introduced in Canada's 2008 federal budget and came into effect on January 1, 2009. The purpose was to encourage Canadians to save money by allowing earned income to accumulate in a tax-free environment.

[Click here](#) to learn more about the tax-free savings account (TFSA).

Want to learn more about government student aid (student loans and grants)?

To learn more about how student loans work, watch this [Orientation Presentation](#) or visit the Alberta Student Aid website at studentaid.alberta.ca.

The 2022-2023 AB Student Loan application will be released in June.

Need help applying? Get answers to your funding questions and help submitting your student loan application! Sign up for a personalized appointment with us starting June 13th. Book your virtual Google Meet appointment at bit.ly/CUE-FinAidCal

Don and Norine Lowry Awards for Women of Excellence

Don Lowry was the president and CEO of EPCOR from January 1998 to his retirement on March 6th of 2013. In recognition of his service, EPCOR's Board of Directors established a fund with the support of other community members. Don and Norine matched EPCOR's contribution to the Don and Norine Lowry Awards Fund. The award is to honour Don and his achievements for the company and community. More importantly, it provides assistance to women of all ages in pursuit of their goals.

Each year typically 5 students receive awards ranging from \$1,000 to \$5,000. The size and number of awards may vary.

Don and Norine Lowry Awards Criteria

- You are a woman
- You are a resident of the City of Edmonton. Surrounding municipalities are not eligible.
- You are a Canadian Citizen or permanent resident.
- You are pursuing a program of study in one of the following fields: Engineering, Medicine, Dentistry, Nursing, water, power, energy, finance, accounting, and safety.

Application Deadline May 31

Visit the [Edmonton Community Foundation Website](#) for more information and to apply.

This is an external scholarship opportunity and is not administered by Concordia University of Edmonton.

APPLICATION DEADLINE

The application deadline is **June 1, 2022**. Please find more information with regard to the application process on our website:

www.hs-osnabrueck.de/summer-university-lingen

PROGRAM CONTENT

Global Players and Hidden Champions: Business and Technology Made in Germany

The Summer University Lingen (SUL) offers a unique insight into Germany's economy and its successful internationally operating companies. You will have the chance to experience German economy at first hand by participating in exciting lectures by our dedicated professors and by visiting several companies. A great way to network and to receive access to the German labor market!

The backbone of Germany's economy are family-owned medium-sized companies, the so-called German Mittelstand, which not only have high revenues but are also often huge players on the global market. The area of Lingen, where our Summer University takes place, is home to many Mittelstand companies. They have strong ties to the region while at the same time operating very successfully on an international and global market. The Summer University Lingen (SUL) will analyze the following questions:

- What is the structure of German economy and what are the challenges?
- What is the German Mittelstand?
- What are the key success factors of family-owned and medium-sized companies? How did they become internationally successful?

You will attend lectures on topics such as

- Features of small and medium-sized enterprises (SME)
- International Management and International Marketing
- International Human Resource Management
- Technology based SME

Besides the lectures, you will participate in group and project work as well as deal with case studies.

CREDIT POINTS AND EXAMS

Our university offers 5 ECTS credit points for attending the SUL. The 5 ECTS are awarded for attendance of the lectures and the company visits as well as for the final exam. You will also receive a certificate of attendance.

HOUSING

You can choose between two housing options:

Option 1: Shared student apartment

You will be accommodated with other German or international students in student apartments near the campus. You will have your own bedroom but will usually share a bathroom and a kitchen. The apartments are located throughout the city of Lingen and are not in one building complex.

Option 2: Find your own housing

You can organize housing for yourself in one of the hotels or vacation apartments in Lingen. After your acceptance to the program, you will receive a list of possible hotels. You are responsible for making your own reservations.

Summer University Lingen puts theory into practice!

We will visit several internationally operating companies to gain insight into the regional, international and global procedures of companies in Germany, the city of Lingen and its surrounding area. The companies come from different industries such as automotive engineering, air-conditioning technology, shipbuilding and other innovative technology branches. The company visits are a great opportunity to get a unique insight, talk to company representatives, build a network with potential future employers and find out what they are looking for.

Please find more information on the SUL here:

www.hs-osnabrueck.de/summer-university-lingen

www.youtube.com/watch?v=CW-uSIXyQ2E

CULTURAL PROGRAM

Various leisure activities and a weekend trip to Berlin complete this program and offer the opportunity to learn more about Lingen, the Emsland region as well as Germany as a whole. International participants will get to know each other during common sport activities, cultural trips, pub crawls and barbecues.

THE CITY OF LINGEN

Looking back on more than 1,000 years of history, Lingen has many stories to tell. Nowadays, 57,000 inhabitants live in Lingen's safe and family-friendly neighborhoods and work in nearby businesses. Lingen has a rich cultural life, and both our students and staff are very active not only in participating, but also in shaping many activities. Studying in Lingen means becoming part of the community, both on and off campus.

What makes the city of Lingen special?

- safe city with very welcoming and open-minded people
- city center in walking distance from campus
- a variety of restaurants, cafés and bars
- cultural offers such as theaters, cinemas and a concert hall
- great outdoor activities, such as bike-riding and swimming
- good public transportation to explore neighboring cities such as Münster, Osnabrück, Bremen or Amsterdam (Netherlands)
