

A Taste of Home

As an international or exchange student, it can be difficult to settle into a new place, handling new routines, and trying to find your way around the city. One of the things you can miss the most about home is the food, and the chorus of laughter at the dining table as you share a meal with friends and family.

We have compiled a list of various international restaurants and stores around Edmonton. With this list, we hope you are able to find some meals to give you a comforting taste of home as you make your mark in Canada.
