

ENVIRONMENTAL HEALTH *After Degree*

CONCORDIA
UNIVERSITY
OF EDMONTON

DEGREE INFORMATION

Environmental Health is a branch of public health protection concerned with all aspects of the natural and built environment that may affect human health.

As a student of Environmental Health, you will learn to improve the health of the community at large through advocacy, educational programming, research, risk assessments, inspections, applying public health legislation, promoting health initiatives, and community outreach. This program opens the door to potential careers in governmental health agencies, not-for-profit organizations, private industry, and educational institutions.

15 MONTH AFTER DEGREE

BACHELOR OF ENVIRONMENTAL HEALTH

Our Environmental Health (After Degree) program is accredited by the Canadian Institute of Public Health Inspectors (CIPHI) Board of Certification (BOC), the accreditation body for institutions that offer environmental public health programs.
